The Directors recommend that Shareholders vote in favour of adopting the Remuneration Report.

5. Resolutions 6, 7 & 8 - Issue of Options to Consulting Companies associated with Directors of the Company

5.1 Background

Shareholder approval is being sought in Resolutions 6, 7 and 8 to grant and issue a total in aggregate of 7,500,000 Options to consulting companies which provide high level consulting services to Desert Energy Limited which are associated with the Directors of the Company, namely Dr Robert Taylor, Mr Garry O'Hara and Mr Phillip Jackson.

DESERT ENERGY LIMITED

ACN 123 102 974

The exercise price for the Options will be the closing market price for the Shares as at the date of the issue of the Options plus 100.1% of that price. For example if the market price for the shares in the Company at the time the Options are issued is 18.5 cents, the exercise price will be 37.2 cents and if all of the Options are exercised this will raise \$2,790,000 for the Company.

The Company proposes to offer, and if accepted, grant and issue a total of:

- 3,000,000 Options to Able Kids Pty Ltd or its Nominee. Able Kids Pty Ltd, the consulting company of Desert Energy Limited's Executive Director, Dr Robert Taylor, has been retained by Desert Energy Limited to provide the Company with geological and business development services; and
- 3,000,000 Options to Anketell Pty Ltd or its Nominee. Anketell Pty Ltd, the consulting company of Desert Energy Limited's Executive Director, Mr Garry O'Hara, has been retained by Desert Energy Limited to provide the Company with geological and business development services; and
- 1,500,000 Options to Holihox Pty Ltd or its Nominee. Holihox Pty Ltd, the consulting company of Desert Energy Limited's Chairman of Directors, Mr Phillip Jackson, has been retained by Desert Energy Limited to provide the Company with commercial advice.

The grant of Options is designed to provide a material additional incentive for the ongoing commitment and dedication of the above consultants to the continued growth of the Company without drawing on the Company's cash reserves.

The terms and conditions attaching to the Options are set out in the Appendix.

5.2 Chapter 2E of the Corporations Act 2001

Chapter 2E of the Corporations Act 2001 prohibits the Company from giving a financial benefit to a related party of the Company unless either:

- (a) the giving of the financial benefit falls within one of the nominated exceptions to the provisions; or
- (b) prior shareholder approval is obtained to the giving of the financial benefit.

For the purposes of Chapter 2E, each director of the Company is considered to be a related party of the Company. Similarly each company controlled by a director is considered to be a related party of the Company. Accordingly, the issue of the Options to Anketell Pty Ltd, Able Kids Pty Ltd or Holihox Pty Ltd or their respective Nominee pursuant to the proposed Resolutions constitutes the provision of a financial benefit to related parties of the Company.

Although the issue of Options may fall within one of the nominated exceptions referred to in paragraph (a), this is not entirely certain and accordingly, in the interests of certainty it has been determined to seek shareholder approval to the issue of the Options to the consulting companies or their Nominees.

Consequently, in accordance with section 219 of the Corporations Act, the following information is provided to Shareholders to allow them to assess the proposed issue of Options to related parties.

The related party to whom the proposed resolutions would permit the financial benefit to be given:

Anketell Pty Ltd, Able Kids Pty Ltd and Holihox Pty Ltd (or their respective Nominees) are the related parties to whom a financial benefit would be given.

The nature of the potential financial benefit

The proposed financial benefit to be given to Able Kids Pty Ltd or Nominee is the grant and issue of 3,000,000 Options for nil consideration and on the terms and conditions set out in the Appendix to this Explanatory Memorandum.

Directors' recommendation

Dr Robert Taylor has a material personal interest in Resolution 6 and accordingly does not wish to make a recommendation in relation to Resolution 6. The other Directors, who do not have a material personal interest in the outcome of Resolution 6, recommend that Shareholders approve Resolution 6 as they are of the view that the issue of Options to Able Kids Pty Ltd is appropriate recognition of its efforts to date, and assists the Company in retaining the services and dedication of Able Kids Pty Ltd and therefore Dr Robert Taylor whilst maintaining the Company's cash reserves at a time when there is significant competition for the services of experienced exploration and mining personnel.

(i) *Value attributed to the proposed issue of Options*

The Company's advisers have valued the Options using the Black-Scholes Option Pricing Model ("**BSModel**") and the Binomial Option Valuation Methodology ("**Binomial Model**"), which are two of the most widely used and recognised models for pricing options.

The BS Model calculates the expected benefit from acquiring the Shares outright less the present value of paying the exercise price for the Options on date of expiration. This model is considered robust and sufficiently accurate as an option pricing tool where options are not expected to be exercised until the end of the option's life. The model uses historical share price volatility measures and therefore may not approximate actual share price behaviours in the future. The Binomial Model is able to value American options which may be exercised at any time over their life.

The Binomial Model uses a "discrete-time" model of the varying price over time of financial instruments; the model is thus able to handle a variety of conditions for which other models cannot be applied. Essentially, the Binomial Model valuation is via application of the risk neutrality assumption over the life of the option, as the price of the underlying instrument evolves.

For European options, the Binomial Model value converges on the BS Model value as the number of time steps increase.

Similar assumptions underpin both the Binomial Model and the BS Model, and the Binomial Model thus provides a discrete time approximation to the continuous process underlying the BS Model.

The following table incorporates the assumptions used in determining values for each the Options, and the results of the valuation methodologies employed.

| Assumption | Note | Able Kids Pty Ltd, Anketell Pty Ltd & Holihox Pty Ltd |
|--|-------------|--|
| Underlying Share spot price | 1 | 18.5 cents |
| Exercise Price | 2 | 37.2 cents |
| Dividend rate | 3 | Nil |
| Standard deviation of returns (annualised) | 4 | 70.00% |
| Risk free interest rate | 5 | 6.49% |
| Valuation date | 6 | 8 October 2007 |
| Expiry date | 6 | 8 September 2014 |
| Exercise period (months) | 7 | From the date of issue to 83 months from the date of issue |
| Black Scholes Valuation (per Option) | 8 | 0.1107 |
| Binomial Valuation (per Option) | 9 | 0.1108 |

Note 1 The underlying share spot price used for the purposes of this valuation is based on the price of the Shares on the ASX at 8 October 2007.

Note 2 This price has been set based on the last traded price of the underlying Shares on 8 October 2007, plus 100.1%.

- Note 3 As at the date of this report the Company has not forecast any future dividend payments. For the purposes of the valuation it has therefore assumed been assumed that the Company's Share price is "ex-dividend". If dividend payments were forecast, the value of the Options would be reduced.
- Note 4 The anticipated standard deviation over the life of the Options is based on the Company's historical data from the Australian Graduate School of Management's Risk Measurement Service.
- Note 5 The risk free rate is the Commonwealth Government securities rate with a maturity date approximately that of the expiration period of the Options as at 8 September 2014. (Source: Reserve Bank of Australia).
- Note 6 The valuation date for the purposes of this report is the last traded date prior to the date of this valuation.
- Note 7 The expiration period is the difference between the issue/valuation date and expiration date in years.
- Note 8 See above for detailed background on the methodology of the valuation type.
- Note 9 See above for detailed background on the methodology of this valuation type.

Based on the valuation methodologies adopted and the assumptions made the Company's advisers value the options, after considering the values calculated using the Black-Scholes and Binomial methods, to equal 11.07 cents each.

The valuation assumes that all Options have vested to the option holder and that there are no performance hurdles that must be achieved that would otherwise potentially dilute the value of the Options to the holder on the assumption that they may not vest.

(ii) *Sensitivity Analysis*

The calculation of the value of the Options has been subjected to a sensitivity analysis using the BS Model to examine the effect of varying the principal assumptions used in the valuation. The results of this analysis are as follows:

| Variable – Standard deviation of returns (annualised) | | Value per Option (Black Scholes) |
|--|-------|---|
| Plus 5% | 75.0% | 0.1176 |
| Plus 2.5% | 72.5% | 0.1142 |
| Listed standard deviation | 70.0% | 0.1107 |
| Less 2.5% | 67.5% | 0.1071 |
| Less 5.0% | 65.0% | 0.1034 |

The table above shows that Standard Deviation has a significant influence on the value of the Options.

| Variable - Interest Rate | | Value per Option |
|---------------------------------|-------|-------------------------|
| Plus 10% | 7.14% | 0.1122 |
| Plus 5% | 6.81% | 0.1114 |
| Risk free interest rate | 6.49% | 0.1107 |
| Less 5% | 6.17% | 0.1099 |
| Less 10% | 5.84% | 0.1091 |

The table above shows that the risk free interest rate has only a minor influence on the value of the Options.

DESERT ENERGY LIMITED

ACN 123 102 974

| Variable – Share Price | Issue Price (Cents) | Exercise Price (Cents) | Value of Options |
|-----------------------------------|---------------------|------------------------|------------------|
| Plus 10% | 20.4 | 40.7 | 0.1217 |
| Plus 5% | 19.4 | 38.9 | 0.1162 |
| Market price as at 5 October 2007 | 18.5 | 37.0 | 0.1107 |
| Less 5% | 17.6 | 35.2 | 0.1051 |
| Less 10% | 16.7 | 33.3 | 0.0996 |

The table above shows that changes to the issue price has a significant influence on the value of the Options.

DESERT ENERGY LIMITED

ACN 123 102 974

As approval of Shareholders is being sought pursuant to ASX Listing Rule 10.11 under resolutions 6, 7 and 8 to the issue of up to 7.5 millions options, under ASX Listing Rule 7.2 (Exception 14), Shareholder approval under ASX Listing 7.1 is not required for the issue of those Options.

6. Resolution 9- Issue of Options to Consultants

The Company proposes to offer, and if accepted, grant and issue a total of 3,700,000 Options in the portions, and to the persons (or their approved Nominees), specified in column two of Table 1 below, being consulting companies which have been retained by the Company to provide the consultancy services of the persons named in column one of Table 1 below.

The exercise price of these Options will be at a 100.1% premium above the market price of the Company's shares on the date upon which the Options are issued. For example if the market price for the shares in the Company at the time the Options are issued is 18.5 cents, the exercise price will be 37.2 cents and if all of the Options are exercised this will raise \$1,376,400 for the Company.

The grant of the Options is designed to:

- i) encourage the consultants to have a greater involvement in the achievement of the Company's objectives by providing a material additional incentive for their ongoing commitment and dedication to the continued growth of the Company and
- ii) do this in a way which does not deplete the Company's cash reserves.

The number of Options to be issued to each Consultant was negotiated with the consulting companies at arms length and is considered by the Directors to be appropriate.

If this Resolution is approved by shareholders, in order to retain a reasonable balance of remuneration between the Company's various consultants, the Company intends to offer the options referred to in this Resolution provided each of Resolutions 6, 7 and 8 are also approved.

Table 1

| Name | Consulting Company which provides the person's services under contractual arrangements. | Consulting Services | Number of Options |
|-----------------|---|----------------------|-------------------|

Additional information

The following additional information is provided to Shareholders pursuant to Listing Rule 7.3:

- (a) the maximum number of Options to be issued under Resolution 9 is 3,700,000;
- (b) the exercise price for the Options is the closing market price for the Shares on SEATS (excluding special crossings, overnight sales and exchange traded option exercises) as at the date of the issue of the Options plus 100.1% of that price;
- (c) the Options will be issued on a date which is no later than one month after the date of the Meeting;
- (d) the Options will be issued for nil consideration;
- (e) the allottees are the Consulting Companies specified in the second column in Table 1 above, or their Nominees;
- (f) the Options will be exercisable from the date of issue until 36 months after their issue date;

DESERT ENERGY LIMITED

ACN 123 102 974

- (g) the terms and conditions of the Options are set out in the Appendix to this Explanatory Memorandum;
- (h) no funds will be raised by the issue of the Options; and
- (i) if all the Options are ultimately exercised, the amount raised will depend on the exercise price for the Options which will vary depending on the market price for the Company's Shares on the date of issue of the Options; and
- (j) the Company's adoption of Australian equivalents to International Financial Reporting Standards means that, under AASB2 Share-based Payment, equity-based compensation is recognised as an expense in respect of the services received. In the case of the Consultant Options, using the example in 5.3 above, the cost to the Company would be \$409,590.

All of the Directors were available to consider the proposed Resolution

7. Resolution 10- Approval of Desert Energy Employee Option Plan

ASX Listing Rule 7.1 provides a formula that limits the number of equity securities the Company may issue within any 12 month period without shareholder approval. The formula allows the company to issue a maximum number of equity securities equal to 15% of its previously issued share capital, subject to various exceptions under Listing Rule 7.2.

One exception to this rule, Listing Rule 7.2, exception 9, provides that issues under an employee incentive scheme are exempt for a period of three years if shareholders approve, as is proposed by Resolution 9, the issue of securities under the scheme as an exception to ASX Listing Rule 7.1. The Employee Option Plan is a new plan established in October 2007 and provides for the issue of options to employees, directors and consultants.

A copy of the Desert Energy Employee Option Plan is attached.

8. Resolution 11– Approval for possible future placement of Shares

The purpose of this Resolution is to give the Company the opportunity, if it arises, to take advantage of any favourable market conditions in early 2008 to raise capital by the issue of shares. Resolution 11 seeks prior shareholder approval under ASX Listing rule 7.1 for the issue of up to 12,000,000 fully paid ordinary shares in the Company ("Issue") at the date of the issue, at a price that is at least 80% of the average market share price of Aurora's fully paid ordinary shares over the last 5 days on which sales of the Company's shares are recorded before the day of issue of the Shares (or if a prospectus or other disclosure statement issued in relation to the issue before the date of signing of that document). "Market price" means the closing price for the Shares on SEATS (excluding special crossings, overnight sales and exchange traded option exercises) on the relevant five trading days.

Shareholder approval of the Placement is sought pursuant to Listing Rules 7.1 and 7.3 so as to preserve the ability of the Company to also issue up to 15% of the issued capital of the Company during the next twelve months without obtaining prior shareholder approval in addition to the Shares referred to in Resolution 11.

The reasons for such a possible placement will be to raise additional capital to allow the Company to continue with its exploration programs and business development, as necessary.

Any Shares to be issued in accordance with Resolution 11 will be issued no later than 3 months after the Annual General Meeting.

The Shares will be fully paid ordinary shares and will rank equally with all other existing fully paid shares in the Company from their date of issue.

The Directors believe that Resolution 11 is in the best interests of the Company and its shareholders and unanimously recommend that shareholders vote in favour of it.

(g) Exercise

Subject to m) below, the Consultant Options may be exercised by notice in writing to the Company ("the Exercise Notice"), delivery of the Consultant Option certificates and payment of the Exercise Price to the Company at any time between the date of issue and the Expiry Date ("the Exercise Period"). The Consultant Options may be exercised in one or more lots, of not less than 10,000 Options at any one time, on different occasions during the Exercise Period. Within 5 business days of receipt of the "Exercise Notice" and Consultant Option certificates and payment of the "Exercise Price", the Company will allot the corresponding number of fully paid ordinary shares to the optionholder, procure the issue a statement of holding for the shares and apply for the shares to be listed on the stock exchanges on which the Company is listed. The shares issued as a result of exercise of the Consultant Options shall rank equally in all respects with the other issued fully paid shares in the Company.

(h) New share issue

The Company must notify the optionholder of the proposed issue at least 9 business days before the record date. Optionholders do not have a right to participate in new share issues without exercising their Consultant Options in accordance with Listing Rule 6.19.

(i) Bonus Issue

If, from time to time, before the expiry of the Options the Company makes a pro rata issue of Shares to Shareholders for no consideration, the number of Shares over which the Options are exercisable will be increased by the number of Shares which the optionholder would have received if the Option had been exercised before the record date for calculating entitlements to the pro rata issue.

(j) Reorganisations

In the event of any reorganization of the issued capital of the Company, the Consultant Options will be reorganized by the Company in accordance with the Listing Rules (including without limitation by changing the number or exercise price for the Consultant Options in such manner as may be required by the Listing Rules.)

(k) Change of Consultant Option's exercise price or the number of underlying securities

- (i) In the event that a pro rata issue (except a bonus issue) is made to the holders of the underlying securities in the Company, the exercise price of the Consultant Options may be reduced according to the following formula:

$$O' = \frac{O - E[P - (S + D)]}{N + 1}$$

O' = the new exercise price of the Consultant Option;

O = the old exercise price of the Consultant Option;

E = the number of underlying securities in the Company into which one option is exercisable;

For personal use only

DESERT ENERGY LIMITED

ACN 123 102 974

- P = the average market price per security (weighted by reference to volume) of the underlying securities in the Company during the five (5) trading days ending on the day before the ex rights date or ex entitlements date;
- S = the Subscription price for a security under the pro rata issue;
- D = the Dividend due but not yet paid on the existing underlying securities (except those to be issued under the pro rata issue);

- (ii) The number of shares to be issued pursuant to the exercise of Consultant Options will be adjusted for bonus issues made prior to exercise of Consultant Options. The effect will be that upon exercise of the Consultant Options the number of shares received by the optionholder will include the number of bonus shares that would have been issued if the Consultant Options had been exercised prior to the record date for bonus issues. The exercise price of the Consultant Options shall not change as result of any such bonus issue.

(l) Dividends

The Consultant Options carry no entitlement to participate in dividends until shares are allotted pursuant to the exercise of the Consultant Options.

(m) Cessation of engagement of the Consultant or death of the optionholder.

- (i) In the event of the death of a Relevant Person in relation to a parcel of Consultant Options then such parcel of Consultant Options shall remain in full force and effect for the full term up until the Expiry Date and may be exercised at any time up to the Expiry Date by the holder or a deceased optionholder's legal personal representative.
- (ii) Subject to paragraph (iii), (iv) and (v) below, in the event of a Consultant (other than a Specified Consultant) ceasing to be engaged by the Company or any of its subsidiaries as a consultant one half of the Consultant Options issued to that Consultant or its Nominee shall remain in full force and effect for the full term up until the Expiry Date and the other half of such Consultant Options may only be exercised by the optionholder within 3 months of such Consultant ceasing to be so engaged and immediately following that 3 months shall forthwith lapse and have no further effect unless otherwise determined by the board of directors of the Company.
- (iii) If at the time a Consultant ceases to provide consulting services to the Company, the Relevant Person in relation to the Consultant Options issued to such Consultant (or its Nominee) commences providing consulting services to the Company or becomes an employee of the Company then for then for the purposes of (ii) above, that Consultant will be deemed to continue to provide consulting services to the Company for such period as such Relevant Person continues as a consultant or employee of the Company and accordingly all such Consultant Options will remain in full force and effect during such period.
- (iv) In the event of a Consultant ceasing to be engaged as a consultant or deemed consultant by the Company or any of its subsidiaries following the takeover of the Company or following a Change in Control, all Consultant Options issued to such Consultant or its Nominee shall remain in full force and effect for the full term up until the Expiry Date.
